

# Homework / Pre-Work for Lesson 2

## Refine Your AI Opportunity

Choose one "AI-Ready" problem from your "Opportunity Canvas" and briefly (1-2 paragraphs) describe:

1. The current problem.
2. How AI could potentially help solve it.
3. What data might be relevant.

## Observe AI in Action

For the next week, pay attention to any AI you encounter (even subtle ones like spellcheck suggestions or smart replies). Jot down one observation about how it helps or hinders you.
