

# Homework / Pre-Work for Lesson 3

# Refine Your AI Strategy Document

Consolidate your work from this lesson into a brief (1-page) strategic overview for your AI opportunity, including:

01

---

## Problem Statement

from HCD Define phase

02

---

## Target User Persona & their key pains/gains

03

---

## Proposed AI Solution

high-level, how it uses AI

04

---

## Primary Value Proposition

for users & organization

05

---

## Top 2-3 Ethical Considerations

and proposed mitigation strategies

06

---

## Initial Stakeholder List

# Explore AI Tooling

Spend 30 minutes exploring a no-code AI tool or platform (e.g., a simple chatbot builder, an AI image generator, a text summarizer). Just get familiar with the interface – no need to build anything complex yet.

Come prepared to share one observation about the user experience.
